

YAKULT BOTTLE WINDCHIME

1 MATERIALS

- Yakult bottles
- Beads
- String or twine
- A stick or piece of timber (approx. 30cm long)
- Paint or markers (plus any extra craft supplies you'd like for decorating)
- An element for music (eg. a bell, rice, or metal such as cutlery)
- A pin or craft knife (to make a small hole in the base of each bottle)

2 STEPS

1. **Drink & Rinse** – Enjoy your Yakult, then wash and dry the bottle.
2. **Decorate** – Use paint, markers, or craft supplies to decorate your bottles in bright colours.
3. **Prepare your Bottles** - Carefully poke a hole in the base of each bottle. Tip: Ask an adult to help with this step.
4. **Thread & Bead** – Cut a piece of string, add beads, and tie a knot to hold them in place. Thread the string through the bottle, then add more beads below it.
5. **Assemble** – Tie each decorated bottle string onto the stick so they hang freely.
6. **Hang & Enjoy** – Place your wind chime somewhere breezy and enjoy the cheerful jingling sounds.
